Mandya, Karnataka - 571415, India

CAREER OBJECTIVE

Seeking a position in the field of Computer Science where I can utilize my skills to further work towards personal and professional development and contribute towards the prosperity of the organization.

EDUCATION

• Mysuru royal institute of technology

Bachelor of Engineering in Computer Science and Engineering

Nov 2022- present

CGPA: 8.44/10.00

PROJECTS [\[Github\]](#)

Museum management system: [DBMS Project]

Tools: [HTML, CSS, Javascript, PHP, Mysql]

- Developed a web-based museum management system to efficiently handle exhibits and visitor information.
- Utilized PHP and MySQL for streamlined data management, resulting in optimized exhibit handling.
- Created both admin and user modules to facilitate easy management and ticket generation.
- Implemented CRUD operations to analyze and maintain real-time status updates for exhibits and visitors.

AppHub – Mini App Store Platform [\[LINK\]](#)

- Tools: HTML ,CSS, Javascript,firebase
- Developed a lightweight app store that allows users to browse, search, and launch apps without installation.
- Features include categorized app listings, in-app launch via file paths, and a Google Play store like UI with app cards and navigation bar .

AI system for real time language interpreter for the deaf and hard of hearing [\[Project\]](#)

Tools:[Python, OpenCV, CNN, Mediapipe ,Tensorflow,NumPy]

- AI-powered system that translates sign language gestures into text and speech using deep learning and computer vision.
- Implemented real-time hand gesture recognition with CNN, MediaPipe, and OpenCV, and integrated speech-to-sign conversion using web technologies.
- Aimed at enhancing communication for deaf and hard-of-hearing individuals through a dual-mode interpreter.

TECHNICAL SKILLS

- Programming Languages : Basic C, Python, Java
- Web Technologies : HTML, CSS, Javascript
- AI/ML Tools: TensorFlow, Keras, OpenCV, MediaPipe, NumPy
- Database Systems : Mysql
- Tools & Platform : Git, Github, VS code ,Jupyter notebook, Eclips
- Soft Skills:Analytical thinking, Project ownership.

CERTIFICATIONS

- Basics of Python – Infosys Springboard (June 2025) [\[CERTIFICATE\]](#)

Acquired foundational skills in Python programming, data types, loops, and logical problem-solving

- Basics of Java :(Coding ninja) [\[CERTIFICATE\]](#)

Learned core Java programming concepts including data types, operators, and control flow structures.

Built a strong foundation in writing, compiling, and executing Java programs efficiently.

- React JS-A Deep Dive(Udemy) [\[CERTIFICATE\]](#)

- AWS Academy foundation: AWS Generative AI [\[CERTIFICATE\]](#)

- Argonyx'24 : Participate a 24 hours Hackathon web Development held on 8-9 November 2024 at the School of Computer Science and Engineering, RV University

- IGNITEX: Participate 24 hour National level Hackathon(Top 10 finalist)
